

Wonderful 4 Bedroom Floor Plan

This beauty features 3 spacious bedrooms + a Den or 4th bedroom and 2 full baths. This top of the line home was built in 1998 and features almost 1,500 square feet of living space. The perfectly designed kitchen offers a cheery morning room for casual meals. A large formal dining is adjacent to the living area. There's sliding glass door leading from the kitchen out to a private patio and big yard.

The spacious living room offers a beautiful fireplace and vaulted ceilings. The large master suite includes a private luxury bath with garden tub, double sinks, stall shower and tons of linen storage. The guest rooms are very spacious. The laundry room has a built in desk and space for a second refrigerator or freezer.

This home is a must see!!
